# UNITE US

Helping Communities Thrive Through Predictive, Coordinated, and Accountable Care

Unite Us bridges health, social, and economic supports so people can access care when and where they need it. Impact requires more than connections — it requires foresight, accountability, and sustainability.

Turn Insight Into Action

Harness predictive analytics to identify risk before crisis.

- Anticipate needs like food insecurity, housing instability, or avoidable ER use.
- Integrate cross-sector data into one real-time view.
- Translate insights into clear, actionable dashboards.

From Referral to Resolution

Connect partners and track every outcome to ensure accountability.

- Build quality networks of trusted providers.
- Measure and monitor performance for timely results.
- Ensure every referral resolves to an outcome.

The Unite Us Ecosystem

PREDICT · DELIVER · PAY · SAVE

Drive Sustainability and ROI

Reinvest in prevention, resilience, and long-term community strength.

- Reduce duplication and avoid unnecessary utilization.
- Lower administrative burden and operational costs.
- Reinvest savings into sustainable programs.

Align Incentives, Simplify Reimbursement

Tie funding to measurable results.

- Reduce administrative burden with automated workflows.
- Reimburse community-based organizations fairly and quickly.
- Drive accountability through outcome-based payments.

Together, we're redefining how systems care for people. Our end-to-end solutions grow with your needs, providing the right solution at every stage. Learn more at UniteUs.com.

UNITE US

Ready. Proven. **Client-Focused.**

Unite Us helps partners unlock efficiencies, demonstrate ROI, and build sustainable systems that work for everyone.

2,000 Staff Hours Saved

Annually by Gwinnett County, Georgia. (Source)

$21M in Projected Cost Savings

In Summit County, Ohio. (Source)

$280M Reimbursed

Across networks with a less than 2% claims denial rate. (Source)

THE UNITE US DIFFERENCE

	UNITE US	OTHER VENDORS
Proven Technology	✔ 10+ years supporting closed-loop referrals with trusted partners. One platform that tracks outcomes and ROI.	✘ Closing the loop is optional; few outcome types are tracked.
Predictive Insights	✔ Uses millions of real-world and market data points to identify needs and guide growth.	✘ No benchmarking or predictive tools to identify community needs.
Secure & Simple Consent	✔ One secure, centralized record with reusable consent that can be updated or revoked at any time.	✘ Each referral needs new consent; clients must repeat their story.
One Record	✔ Longitudinal care record so providers can coordinate care and track outcomes.	✘ Fragmented data from duplicate records makes tracking difficult.
Verified Network	✔ Built with verified, trusted partners who share our commitment to accountability, measurable results, and meaningful community impact.	✘ Unverified programs with unclear capacity or reliability.

TURNING INSIGHT INTO MEASURABLE IMPACT

Unite Us is the only platform that unites predictive analytics, coordinated delivery, outcome-based payments, and measurable ROI, **helping communities thrive.**
