

# Building a world of connected communities to improve people's health and well-being

## Unlock the potential of every community

Unite Georgia is a coordinated care network consisting of healthcare, government, nonprofits, and others. These network partners use Unite Us' software to identify, deliver, and pay for services that address the needs of individuals within their communities.

### Network partners can:

Easily **refer and connect** your clients to local resources.

**Increase efficiency and capacity** with secure, smarter referrals.

**Measure the impact** of your organization and the services you deliver.

Improve your clients' well-being through access to a **variety of services**.

**Track outcomes** of all referrals and services delivered to your clients.

Identify gaps in needs to **proactively address barriers to care** and increase health equity.

## How does it work?

Anna shows up at Sue's organization.

### Screening

### Resolution

### Feedback

Sue screens Anna and identifies that she has additional needs.

As Anna receives care, Sue receives real-time updates and tracks Anna's total health journey.

- Sue uses the Unite Us Platform to gain digital consent and electronically refer Anna to multiple community partners. Through the platform, she can seamlessly communicate with the other organizations and securely share Anna's information.

**Join a network of:**

-  housing associations

---

-  education providers

---

-  transportation providers

---

-  food pantries

---

-  reentry programs

---

-  health care providers

---
