

# Need help finding or connecting to resources in your community?

---

## We're here for you.

Our navigation team helps connect trial participants with available low or no-cost resources in their communities.

For assistance in learning about services that might be available to you, such as childcare and transportation so that you can attend your appointments, peer support, or other services visit <https://uniteus.com/get-help/trialparticipant>.

Connecting with Unite Us is voluntary, and while Unite Us will try to connect you with the services you are seeking, there is no guarantee the services will be available. The Unite Us team connects with you the service but does not directly provide or pay for any services.

Please be sure to have the below filled out in preparation:

**Merck Trial #:** \_\_\_\_\_

Access to the Unite Us service is paid for by Merck
